1. QuickBooks Online requires a computer with a supported Internet browser (see System Requirements for a list of supported browsers) and an Internet connection (a high-speed connection is recommended). The QuickBooks Online mobile app works with iPhone, iPad, and Android phones and tablets. Devices sold separately; data plan required. Not all features are available on the mobile apps and mobile browser. QuickBooks Online mobile access is included with your QuickBooks Online subscription at no additional cost. Data access is subject to cellular/Internet provider network availability and occasional downtime due to system and server maintenance and events beyond our control. Product registration required.

2. Online services vary by participating financial institutions or other parties and may be subject to application approval, additional terms, conditions, and fees.

3. Data access is subject to cellular/Internet provider network availability and occasional downtime due to system and server maintenance and events beyond our control.

4. Small business clients can invite up to two accounting professionals such as a bookkeeper or an accountant to access their data. Once an accounting professional accepts the invitation, they will automatically get signed up for QuickBooks Online Accountant, allowing them to access their clients' data.

5. Microsoft Word and Excel integration requires Word and Excel 2003, 2007 or 2010.

6. 128-bit Secure Sockets Layer (SSL) is the same encryption technology used by some of the world's top banking institutions to secure data that is sent over the Internet. Terms, conditions, pricing, features, service and support are subject to change without notice.
